Energy Efficiency Certificate

Super Saver!

is awarded to

your signature

parent signature

on this day of _____ for completing the

Kids Korner Energy Survey

and becoming a Smart Super Energy Saver.

Energy Efficiency - Let's Save Energy!

Using energy wisely means being efficient. We use energy everyday at home, at school, at work, and even when you're playing. By saving energy you're helping to save the world's energy resources like natural gas, oil and water and you're also saving money on your utility bills. Best of all, by using energy wisely we can cut down on pollutants in the air and water, making a better environment for everyone.

Think about what would happen if there wasn't enough energy . . . there would be no light to turn on when it got dark . . . there would not be any hot water for the shower or heat for your house in the winter . . . no gas or oil to drive the car . . . so there are lots of reasons we should save energy.

Think of some things you can do to start saving more energy:

Example: The lights and television use electrical energy, so when you leave the room, shut them off.
